

Product Information

Duct & Exhaust Systems

Empire Fibreglass Products has been fabricating and installing FRP duct & exhaust systems for more than **45 years**. We have built and installed these systems in many different industries with a wide range of applications. From the corrosion of plating exhausts to the odors of waste water treatment, from hot corrosive exhaust fumes to cool air make-up systems, Empire Fibreglass Products has been there and done that. We make each system to fit your need. Working with you, we will design and fabricate a quality duct or exhaust system for your application at an affordable price.
